Sino Dutch Construction Materials Ltd

Trading as Creative Brick & Stone

PRODUCT WARRANTY

Creative Brick & Stone Designa Schist Z bricks are manufactured in accordance with the requirements of AS/NZS4455 and with the test methods specified in AS/ NZS4456.

Creative Brick & Stone supply Designa Schist products that are fit for purpose and meet the requirements of the New Zealand Building code for durability.

Provided Designa Schist bricks are installed in accordance with accepted good trade practice by a competent trades person who is a Licensed Building Practitioner , and in accordance with the requirements of the NZBC , NZS4210 and E2/AS1 Masonry , and Design Note TBI , Creative Brick & Stone guarantee the durability requirements as specified in E2 , will be met.

For any Schist veneer design that is outside the scope of The New Zealand Building Code , E2/AS1 , a specific design must be obtained by a suitably qualified person or structural engineer acceptable to the building consent authority issuing the building consent.

MAINTENANCE

Schist is a natural product that is thousands of years old requiring very little maintenance. As this stone is manufactured into a Brick veneer there will be weep holes at the points according to the New Zealand Building Code. It is important to ensure that these weep holes are kept clean and free of debris and spiders.
